

# Immigration and Education -- NP Omnibus Results for August 2020

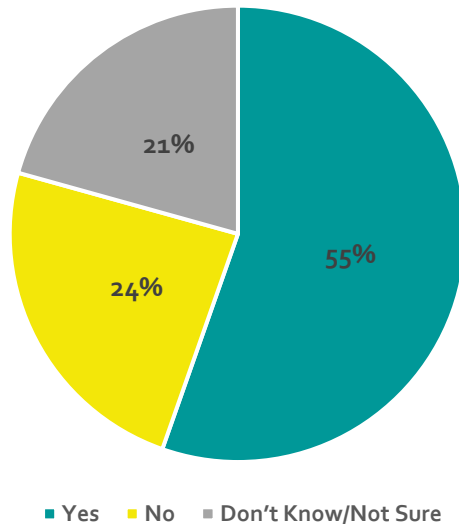

# Summary

- Three out of four questions garnered at least 50% support (excepting support for international students and online education).
- When examining demographics, three groups stand out for their lower level of support regarding all questions:
  - Age group 55-65
  - Rural Residents
  - Republicans
- Support for questions is highest among:
  - Age group 18-24
  - Urban Residents
  - Democrats

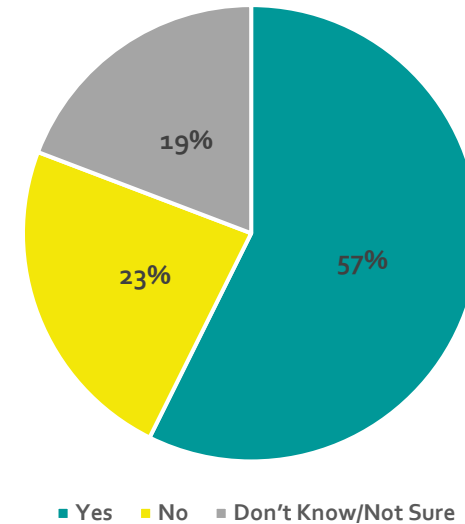

**Methodology:** Responses were collected from NP Strategy's monthly omnibus survey. 807 respondents answered these survey questions in August 2020. The group is weighted and nationally representative by age, gender, and region.

# Work Permits & Grants

In response to the COVID-19 pandemic, do you think that the federal government should automatically extend work permits for immigrants with permission to be in the United States?

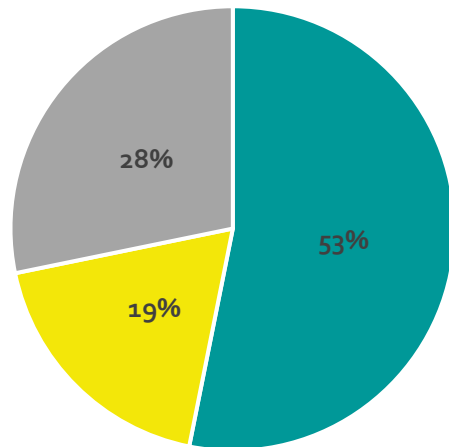

Do you think that all students with financial need enrolled in higher education, regardless of their immigration status, should be eligible for emergency grants that Congress passes as part of legislation to respond to the COVID-19 pandemic?

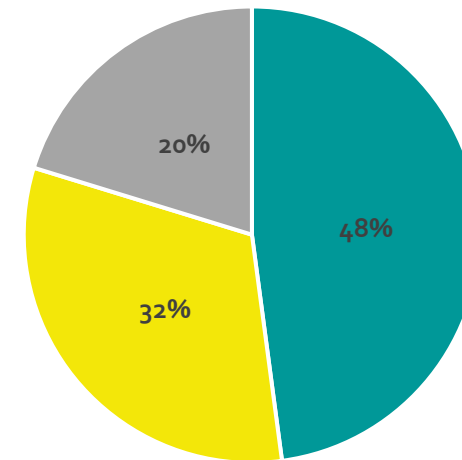

# International Students and Online Schools

Overall, do you favor laws and policies that attract and retain international students and scholars to the United States?

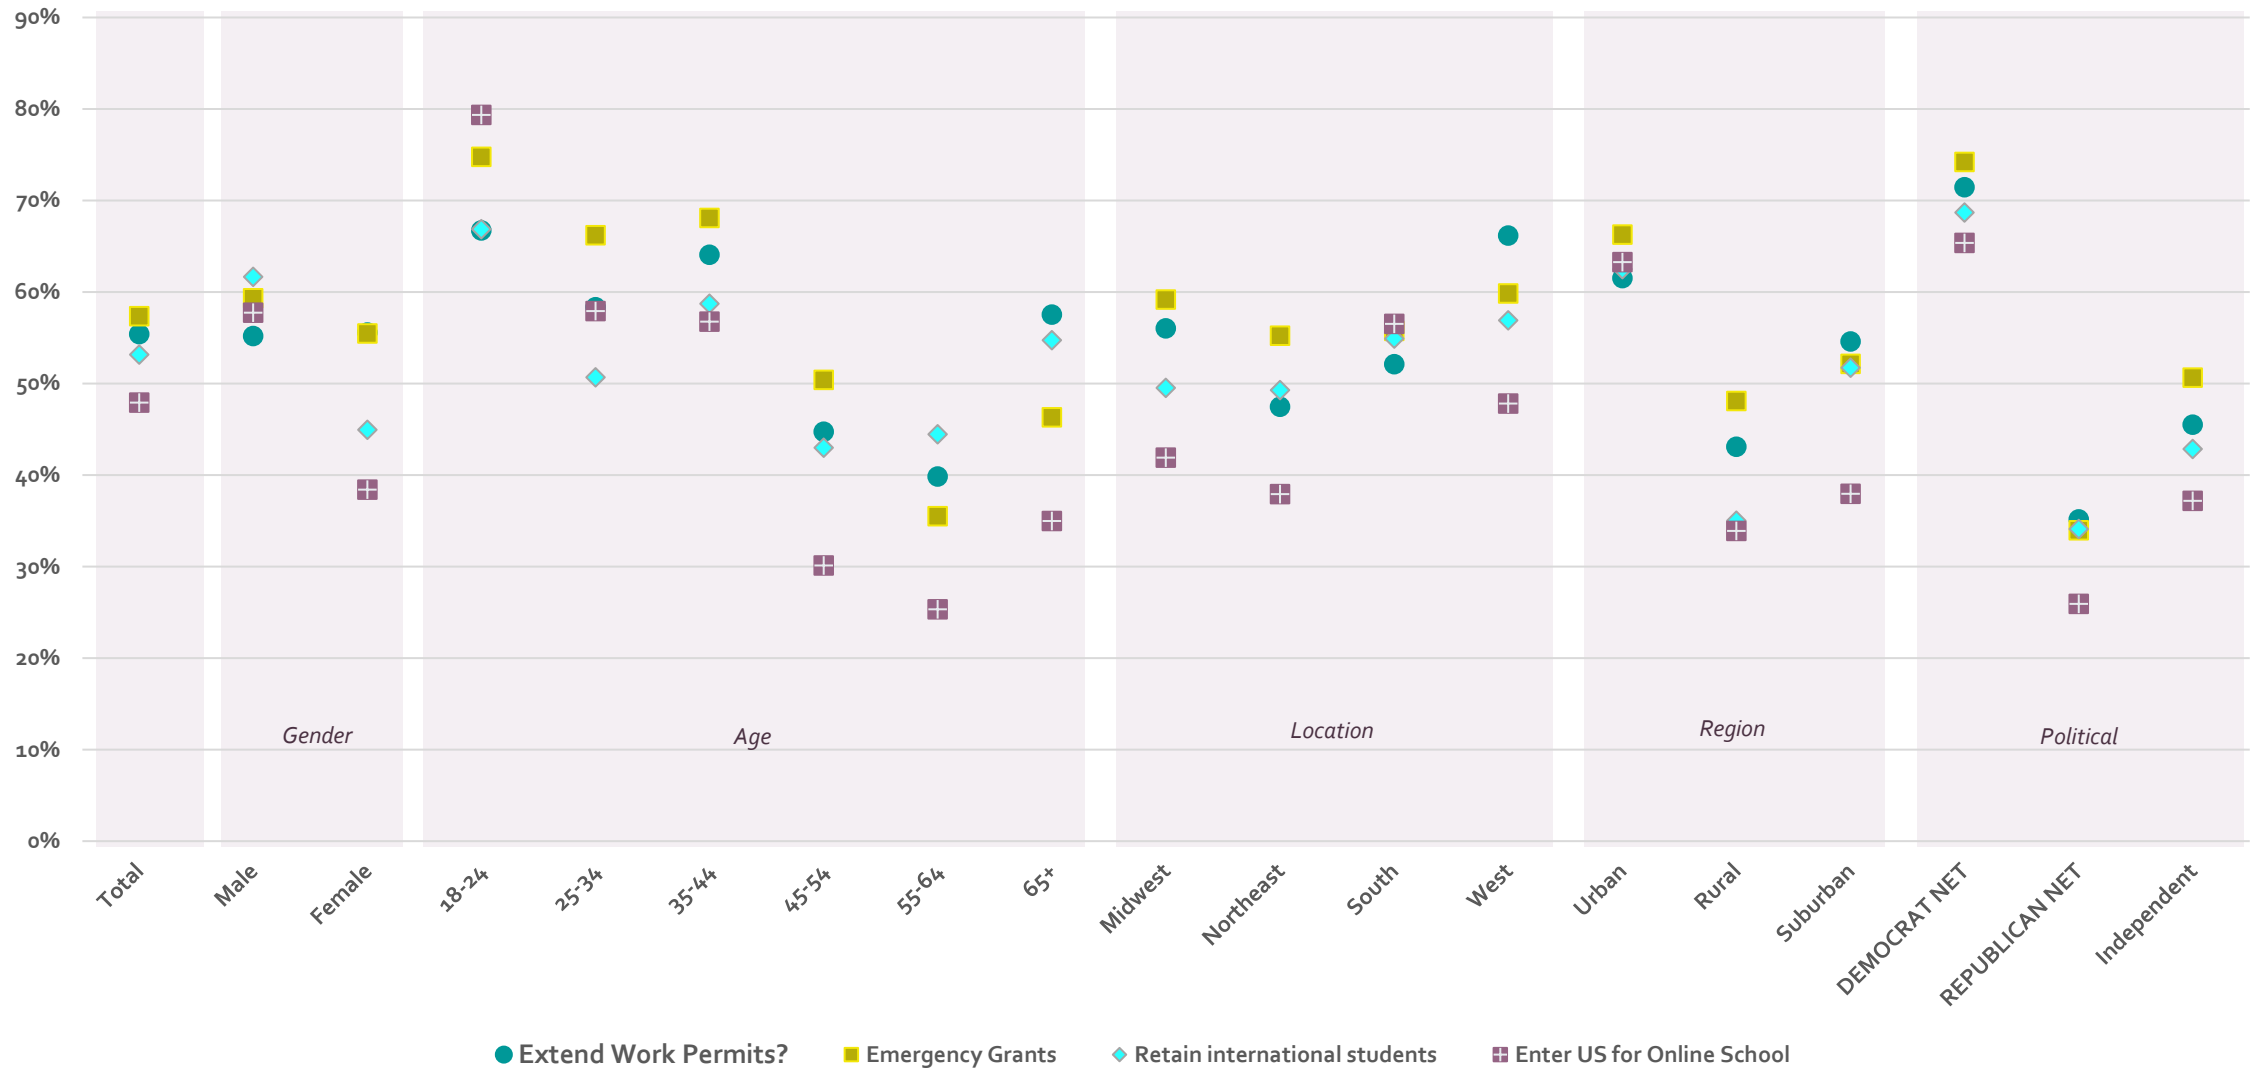

- I favor these laws and policies
- I don't favor these laws and policies
- I'm not sure/No Opinion

In response to COVID-19 trends and public health concerns, many colleges and universities are conducting courses fully online. Do you think that the federal government should allow new international students to enter the United States to enroll?

- Yes
- No
- Don't Know/Not Sure
